## Who loves Pizza??

### *Jeremiah Does!!!*

Jeremiah met with his job developer Katurah weekly to express his desires for certain job positions/employers. Jeremiah practiced interview prep questions that helped him stay ready for potential interviews. His job developer Katurah helped assist Jeremiah in filling out an application to MOD pizza located at Johnson Creek, followed by a working interview with his now current manager, Cassie. He was hired on the spot and is now working Friday-Sunday 12 hours per week.

Jeremiah can work every position at MOD from running the pizza line and operating the cash register to washing the dishes. Katurah continues her support with Jeremiah by checking in weekly with him during his break time to talk about how he thinks his shift is going.

When he does need help with a job task or a certain question, he knows that he can come to her at any time.

Katurah has also helped Jeremiah with getting a great natural support team that is led by his manager Cassie. His coworkers also serve as natural supports and Jeremiah knows that he can lean on them whenever he needs.

His favorite part about his job is being around his manager and coworkers and talking to people since being isolated for so long during COVID.

**Congratulations** Jeremiah on landing the perfect job for you!!!!
