What A Time to Celebrate!!

On August 17th at North Clackamas Park Exceed hosted a catered picnic by Chris Cakes NW to welcome our two new busses “The Twins” the participants were just as excited as we were to see the busses knowing this would help us and them to continue providing fun-filled community outings and employment training geared towards promoting individual choice, participation, and work/play balance. Exceed is so grateful and gave a big shout out to the many donors, sponsors, families, and staff that gave during events that made this all happen. Exceed plans on getting the busses wrapped so that the community knows we are all doing great things!!!

Reaching For the Sky and Achieving Goals!!

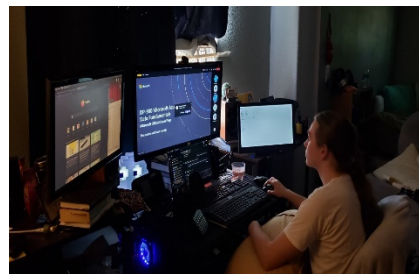

Anthony Keene got his first job his dream job off Craigslist with Propulsion Inc. His job coach in Marion County Carla Paradine arrived at his

group home for the zoom interview in his bedroom as this job would also be a virtual job. Carla says she assisted him with answering some of the questions during his interview as well as helped Anthony to explain his background in IT production.

After the interview Propulsion Inc. got back with Anthony and offered him a position with Microsoft Teams as a producer for 20 dollars an hour.

His job coach Carla then began helping Anthony learn the IT systems the company uses for communication and Outlook for emails. Anthony’s job is doing pre-rehearsals with music or other requests companies may have who are conducting conferences or large zoom meeting on Microsoft Teams. He also problem solves any issues that may arise during the events.

Anthony says he enjoys this type of work because he is an introvert and doesn’t like the business of being in a building. He also says he is a self-acclaimed “nerd” and loves being a gamer and chatting in the LGBTQ chat rooms.
